INTEGRATED SOLUTIONS FOR BUSINESS HEALTH ISSUES

June 26, 2008

Subject: Merchant Consulting Group

To Whom It May Concern:

The purpose of this letter is to provide favorable feedback and an enthusiastic recommendation for Jonathan Arst and his company, Merchant Consulting Group.

Quadrant Health Strategies' clients reflect a wide span of businesses, and we strive to provide integrated solutions to help them manage their health-related issues. We appreciated that Jonathan's company took the time to learn about our clients and our unique business needs. From there, they provided us with a comprehensive set of solutions to help us with our credit card processing requirements.

We experienced a smooth transition of our bank depository account. Jonathan proved to be highly knowledgeable, and delivered on his proposal to provide more competitive rates than our previous processor.

In addition, with Jonathan's help we are now able to access online reporting for all card processing transactions, which helps us keep track of business activity whether in the office or while traveling. This is a great example of an integrated solution that assists our accounting for and management of the business.

In conclusion, I recommend Merchant Consulting Group and Jonathan Arst to any of your clients looking for a professional, knowledgeable, and problem-solving approach to satisfying their card processing requirements.

Sincerely,

Laura Dinsmore, CEO  
Quadrant Health Strategies
